Milk at Three Cents. Milk at Three Cents.

"We know what kind of milk you have here. It has been robbed of its croam, lost the purity it had when it came from the sow, and then it is sold here as whole, pure milk. For the first time the people of New York City even willing to entertain a proposition from us. We sak you to join hands with us said put a stop to the sale of fifthy stuff for milk. We are ready to contract for five years to furnish milk at I cents a quart and guarantee its purity. You can retail it for 8 or 8 cents a quart. The net price the farmer gots now is

It started in a bedroom in his apart-ment. He rushed into the rooms of Mrs. Ellen McNuity on the same floor. She tried to put out the fire with palls of water, but failed and carried out her two young children. Patrolman Keegan, of the Morrisania Station, gave the slarm and then entered the found Bottlestein senseless. He called an ambulance from Lebanon Hospital, and Dr. Blauner took the optician there.

Sensational developments were to-day promised by officers of the Pennsylvania Railroad in connection with the Colding-up by the Board of Aldermen of the franchise to build a railroad in Long Island City between the terminals of the Blackwell's Island Bridge, the East River Tunnel and the Long Island Railroad, which would not only involve the Board of Aldermen and Charles F. Murphy, but also Borough President Joseph Cassidy, the lender of Queens. It is declared that the franchise for the railroad in Queens is being held up so that Cassidy and his friends may get in on the ground floor of the contracts. This franchise has been shelved by the Aldermen since isst June, but the Pennsylvania Company is determined not to pay one dollar either in contracts or by "Yavors" for the Long Island City franchise. In the fight that the Pennsylvania will make in the courts to compsite Aldermen to grant this franchise facts will be brought to light to prove all the charges that have been made by The Evening World of the new kind of graft.
